The Power of Many Perspectives

Mason is a young university and that works in our favor. We’re anything but old school. We don’t see constraints; only possibilities. And given the types of students we attract—from 130 countries and all 50 states—so do they. Because when different perspectives and new ideas connect, true learning and understanding take place, and a global dialogue begins. It only gets more interesting from here.
Mason’s innovative spirit and reputation for excellence have attracted some of the brightest minds in the country. They have published widely, contributed to major research findings, consulted with government and business officials, and are frequently in the media. They are Nobel Laureates, Pulitzer Prize winners, Fulbright Scholars, and Robinson Professors, to name just a few.
IN UNDERGRADUATE RESEARCH GRANTS

Mason is one of only 115 schools in the country to hold the coveted R1 status given by Carnegie. As a tier-one research university, Mason is committed to answering questions that matter, from cybersecurity to cancer treatments.

And undergraduates are taking part, from building a prosthetic with a 3-D printer to working with artifacts at the Smithsonian Institution in Washington, D.C. There is even an office on campus devoted to helping you find a faculty mentor, support for your research, and the opportunity to present it.

RESEARCH AT THE HIGHEST LEVEL
Mason’s most academically talented and motivated students receive distinct benefits, including priority registration, a dedicated Living Learning Community, exclusive seminars, and research with a faculty mentor of your choosing, to name just a few.

Application to Mason’s Honors College is competitive and requires students to apply by the November 1 priority deadline and to submit a supplemental Honors College essay for consideration.
Our 40+ residence halls offer a variety of living arrangements, including suites and apartments. And our popular Living Learning Communities help you connect with others who share your interests or major. Residence halls offer:

- New or recently renovated spaces
- Shared kitchens
- Free laundry facilities
- Bright, open lounge areas
- State-of-the-art fitness centers

Check out our Living Learning Communities (LLCs) and connect with others who share your interests or major.

WHAT ARE YOU HUNGRY FOR?
Mason dining offers something for every taste, including vegan, gluten-free, and Halal. Have a craving for Chipotle? It’s right here on campus, along with Steak n Shake, Panera, Chick-fil-A, Starbucks, and more.
A member of Mason’s Honors College, Erin Schulte is a long-distance freestyler for Mason’s swim team and has taken home more than one Provost Scholar Athlete Award. A childhood battle with leukemia instilled in her a fierce desire to help others. Erin wants to be a physician’s assistant so she can have more one-on-one contact with patients. After graduating, Erin plans to earn her master’s degree and to work with children in either pediatrics or orthopedics.
While still in high school, Nick Stasiak began reporting on the local weather on a website he created, gaining the attention of several local meteorologists. When he came to Mason, he began using the Twitter and Instagram handle @GMUWeatherman to keep Mason students informed of local weather. While an intern at Mason’s Center for Climate Change Communication, Nick worked with the National Park Service on a project monitoring the effects of climate change, mainly acid rain, on Washington, D.C.’s monuments. The report resulted in the closure of the Jefferson Memorial for restoration and repairs. He also helped to start a severe weather communication page for the Climate Institute and was a geospatial intern for PlanetRisk Analytics.
To compete in today’s global economy, you need to have an understanding of the complexities of our interconnected world.

We help prepare students by infusing global awareness across our campus and curriculum.

Our study-abroad programs also give students the opportunity to experience different cultures or master a language while studying at prestigious host institutions.
When you’re not hitting the books, there’s plenty of fun stuff going on all over campus. Join one or two (or three!) of the 350+ student organizations. Don’t see it? Start your own. You can go Greek, join an a cappella group, volunteer for Best Buddies—or do all three. Enjoy concerts and theater performances, rock climb or mountain bike at a nearby park, or explore downtown Washington, D.C.

Show off your Patriot Pride by cheering on one of our 22 NCAA Division I teams, or play on a club or intramural team yourself. And let’s not forget Mason Day, Holi Moli, and Mason Madness! Sleep will just have to wait!
IT’S ALL HERE. ON AND OFF CAMPUS.

- 10 MILES TO NEAREST METRO STATION
- 20 FORTUNE 500 COMPANIES
- 85 FREE SMITHSONIAN MUSEUMS
- 19 LIVE MUSIC VENUES
- 100+ SHOPPING MALLS/TOWN CENTERS

IT'S ALL HERE. ON AND OFF CAMPUS.
Washington, D.C., is just a short distance away, along with limitless internship possibilities. Sure, there’s Capitol Hill, but there are also tech startups, Fortune 500s, nonprofits, the FBI and CIA, performing arts, and numerous museums where you can test out a possible career choice, gain relevant experience, and make valuable contacts.
WHAT COMES AFTER MASON?

YOUR CAREER!

84%
OF EMPLOYED GRADUATES LIVE IN POSITIONS RELATED TO THEIR CAREER GOALS.

700 COMPANIES INTERVIEWED STUDENTS ON-CAMPUS LAST YEAR.

When you’re ready to go out and make your mark on the world, University Career Services can help by providing industry-based career advice, resume and interview workshops, and access to a strong professional network.

Our alumni have gone on to graduate study at Stanford, MIT, and the Medical College of Virginia, to name a few. Many take a break to join the Peace Corps or Teach for America before tackling that advanced degree.
